1. [S6419](#) in the Senate and [A8230](#) in the Assembly would legalize prostitution. This would legalize the abuse of young women.

Scary Medical Legislation

Loss of some PARENTAL and personal RIGHTS to NYS government..

2. [A00099](#) Allows ADULTS to be given FORCED vaccinations and medical treatment under certain circumstances.
3. [A00730](#) **Relates to changing the default standard on statutory health proxy forms regarding life-sustaining treatment standards** Current law protects patients who have completed a health care proxy document appointing a health care agent from being starved or dehydrated to death unless they have specifically authorized it. S 4794 would allow health care agents to decide to starve and dehydrate patients based on judgments by the health care agent even if the agent does not know the patient's wishes. Removing this protection will lead to patients being starved and dehydrated to death, having had no opportunity to express their wishes in that circumstance. AN ACT to amend the public health law, in relation to the artificial nutrition and hydration decision standard
Also [A00730](#) **Relates to changing the default standard on statutory health proxy forms regarding life-sustaining treatment standards** Currently, when a surrogate directs provision of life-preserving treatment, the health care provider must give it pending transfer or judicial review. This bill would allow the provider to deny treatment while the surrogate seeks judicial review. Very possibly, therefore, the patient could die before the surrogate can even get to court. Moreover, the health care provider need

only make diligent efforts to notify the surrogate prior to implementing the decision to deny treatment- so the surrogate may not even know of the denial in time to challenge it. A health care provider who contends that the patient had rejected the treatment the surrogate directed may present that evidence to the court, which, if persuaded, can then override the surrogate's direction. A surrogate may well have evidence to offer that the health care provider misinterpreted the patient's direction, or that the patient later expressed a contrary desire for the treatment the surrogate directed.

The new language would require only that the physician seeking to deny treatment recall the patient expressing orally (in front of the physician and another witness) or in writing a decision regarding life-sustaining treatment. There is no requirement that a notation be made in the patients file at the time of the conversation.

A competent patient who in fact wishes to reject life-saving treatment can do so in a written advance directive, which under NY law has a variety of safeguards such as warning statements and a requirement of witnesses. Health care providers certainly could advise their patients of this option at the time they allegedly state they want to reject treatment. But under the law, any writing rejecting treatment, lacking witnesses or informed consent safeguards is sufficient to let a health care provider override a family health care decision to provide treatment.

4. [S4244B/ A06564B](#) Allows children 14 and older to be vaccinated WITHOUT Parents' CONSENT

Information This is one highway change we think should be supported please Email your Assemblyman at <http://assembly.state.ny.us/mem/> and NYS Senator at <https://www.nysenate.gov/senators-committees> ask them to request NYS DOT study a new Colonie/Clifton Park bridge across the Mohawk River to be located somewhere between Vly Rd and Albany Shaker Rd on Colonie/Latham side and between Van Vranken Rd and Vischer Ferry Rd on Clifton Park side. This will reduce pressure on US Rte. 9 and Northway which now gridlock whenever there is an accident. Both US Rte. 9 and Northway bridges connect the Town of Colonie with the Town of Halfmoon. The original plan from the 1960s was to have NY Rte. 7 cross the Colonie/Clifton Park bridge and then rejoin its existing route by using either the Rexford bridge or the Thruway exit 26 bridge. Of course, any route number could be used today and the path in Saratoga county is not fixed and it could use existing Saratoga county roads.
